

Patient Intake Solution

Open Your Digital Front Door

Interlace Health's Patient Intake Solution ties together all of your patient intake needs into one digital solution. Whether it's a patient signature at registration, forms completion on a tablet in the waiting room, or on a patient's phone from the comfort of home – we provide a simple and paperless platform to:

- Quickly and securely register patients
- Streamline operations
- Boost staff and patient satisfaction

Our solution solves the challenges of disparate systems and processes around patient intake, uniting them into one robust solution that enhances the registration experience.

30% of patients have walked out of an appointment with a long wait

41% of patients would switch providers for a better digital experience

50% of staff report burnout from paperwork

Achieve Your Goals

Our flexible solution provides:

- Reduced patient wait times and frustrations
- Enhanced digital front door capabilities
- Support for telehealth with remote registration
- Seamless integration into current workflows
- Improved patient and staff experience

Transform Your Process

Interlace Health delivers a fully cloud-based solution that digitizes the entire patient intake process, making it fast, fluid, and friendly.

- Remote pre-registration
- Pre-arrival co-pay collection
- Virtual check-ins
- Zero-contact process
- User-friendly experience
- Auto reminders via text and email
- Increased reimbursements

Why It's Better

Interlace Health has been providing solutions that solve workflow challenges for 28 years. We transform the registration process, creating an experience that intersects the convenience patients want and the data health systems need.

- EHR agnostic
- Open architecture
- HL7 and FHIR integration
- Discrete data capture
- Flexible forms
- Mobile UX
- Text messaging
- Unlimited signature capture

Measure the Value

On average, our customers are experiencing:

45 minutes saved by staff prior to appointment

4% reduction in bad debt from pre-service collections
